## Customer Reviews

"It is immensely gratifying to be able to congratulate Project Censored on the Fortieth Anniversary of its remarkable achievements, both in bringing to us critically important stories that have had little or no media attention and in engaging young activists who will be able to carry on this very valuable work. A crucial contribution to the hope for a more just and democratic society."

if I got only 1 book per year, it would be this one. I get 1 every year.

Still more of Project Censored's unearthed "censored" news stories, brought to light by the Project Censored Team. Besides the top 25 stories, they reveal many other horrifying details of life in the USA: Chapter 8, Remote Control, is one of the scariest reports I've ever read.

Not fake news! Lol!

Possibly the best publication to hold our 4th Estate to account.

Good stuff.

Left wing Polemic, but mostly well researched Left wing Polemic, that I've come to expect from the Project Censored folks. While the internet has reduced their claim of "censored" stories to being mostly symbolic, Project Censored presents stories from a true left wing perspective; not a corporate, compromised perspective of Hillary Clinton and her ilk (she is served some criticism in this years edition). Obviously, if you veer to the right this will be seen as "Fake News" but for the rest of us mere mortals, this presents a perspective on news stories not seen as often as it should be. Tilting at Windmills? Of course they are. But you aren't true Progressive if you don't

Purchased this for school. Very interesting articles that don't get a lot of press talk
