Carolyn B. Heller traveled more than 5,000 miles (8,200 kilometers) across the highways and back roads of western Canada while researching this book. She's been road-tripping since she was a child, and she has continued that road trip tradition with her own daughters, notably in 2003, when she and her then-10-year-old twins traveled across the United States on an epic six-week road trip. Carolyn is an avid traveler and passionate food lover who has eaten on the streets, in fine restaurants, and everywhere in between in more than 40 countries. She is also the author of *Moon Ontario* and *Moon Living Abroad in Canada* and has contributed to more than 50 other travel and restaurant guides. She's a Vancouver-based correspondent for the *Forbes Travel Guide* and *Viator Travel*. Her articles have appeared in the *Los Angeles Times*, *Boston Globe*, *Perceptive Travel*, *FamilyFun*, *Real Weddings*, and many other publications. A graduate of Brown University, Carolyn lives with her husband in Vancouver, where you can often find her running on the beach or sampling a new Chinese restaurant. A huge amount of information to help you plan what you want to see and do. A terrific help in planning our vacation to the Canadian Rockies. Helped us find the things we really wanted to do, out of the tremendous variety and options in this rich tourism area.

Bought this great guide 30days before trip. Fantastic guide. So easy & friendly to read! Well organized w/ many levels of cost, interest and most recent reviews of all areas of travel interest. Our go-to guide from now on!

Good book if used in conjunction with other travel books, but I wouldn't recommend using it alone. I got the Michelin Guide and Fodors and that had me covered. I like to thoroughly research a city before I go.

I was disappointed as I skimmed through this book. Last summer, I explored the Northern Rockies of Canada, with extensive day hikes and rustic camping throughout Alberta and eastern British Columbia. Therefore, I had many resources from maps to my own hundreds of photographs of

wildlife and scenery. This book reads like an index to 10,000 places to experience from a car on a drive across western Canada. The result is similar to the American Automobile Association guides to travel in a car, highlighting restaurants, hotels, museums, festivals, and gardens. I had hoped for more detailed, full-page maps of hikes in Canada, along with visually-appealing full-page photographs of scenic highlights. My hiking and camping adventures bore little resemblance to the suggested activities in this book. I picked a book of the wrong title.

Love the book, but a few pages weren't cut cleanly, so I start off for that. I like the feel of the pages. Thin but smooth.
