Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Very thorough and useful during my two weeks in Slovakia. Little English spoken there, so be better prepared than I was. A phrasebook in Slovak would have been very helpful.

i would expect to see scenic routs highlighted, and special touring sites marked in a noticed way on a map that is designed for touring.

I use this map with my local Slovak organizatioin. It's fun to see where are families came from.
