Customer Reviews

I read a review for the Rand McNally Vermont Road Atlas wherein the reviewer dumped the Rand McNally mid-trip and picked up the JIMAPCO Vermont Road Atlas and recommended it above the former. I'm so glad I went with this Road Atlas - it served us very well on our 5 day driving tour of Vermont. We took many small back-roads, some only dirt tracks, and never got lost. The map is well indexed, easy to read, and laid out well. In the city we opted to use our iPhones for turn-by-turn convenience and quickly picked up the map when service was not available. It was a winning combination and made for an enjoyable and adventurous trek through Vermont. I will definitely consider JIMAPCO atlases on future tours.

A GPS is nice to get you where you are going, but this road atlas lets you explore places you have never been. I have been enjoying taking the road less traveled to get where I am going and this atlas has been just what I needed. It keeps me from going in circles and helps me find covered bridges, wildlife management areas, hiking trails and other interesting things along the ways. Just what I have been missing in my travels

Nice maps, good detail. Like the spiral binding. Just the right size without being too large.

Very good maps that lack some detail and color. The spiral binding allows you to lay it flat on your lap or desk. Very useful when your GPS can't "see" the satellite such as an overcast day. Overall very good - I can't find a better one.

Just what we needed to replace our original Vermont Road Atlas which had been well used, and had seen better days.

Timely delivery good product

This atlas has amazing detail on every road and the spiral binding makes it real easy to use.

The size is fine. The spiral binding is great, the index is mostly useful; however, it uses town road numbers which makes it very hard to figure out what the road is because many of the ones we were looking for did not have a number on the sign or we were not sure what the number was until we had already driven past the road. It would also be helpful to have shaded relief, township boundaries and a larger format to fit more detail on each page. We were constantly flipping pages and it got confusing fast. Not up to the Benchmark Arizona Road & Recreation Atlas - 7th edition. A Standard set by these guys (and I know, it's not Arizona)
