Price Fixing (Antitrust Law)

Synopsis

This casebook contains 146 federal court of appeals decisions that address price-fixing in the context of antitrust law. The selection of decisions spans from 2003 through the date of publication and is organized by jurisdiction. The decisions are listed in the order of frequency of citation. The most cited decisions appear higher in each section. Section 1 of the Sherman Act is designed to prevent businesses from entering into collusive agreements. Price-fixing agreements exist between sellers who collude to set their prices above or below prevailing market prices. But buyers may also violate Section 1 by forming what is sometimes known as a "buyers' cartel." Buyer cartels, the object of which is to force the prices that suppliers charge the members of the cartel below the competitive level, are illegal per se. Just as a sellers' cartel enables the charging of monopoly prices, a buyers' cartel enables the charging of monopsony prices; and monopoly and monopsony are symmetrical distortions of competition from an economic standpoint." *Omnicare, Inc. v. UnitedHealth Group, Inc.*, 629 F. 3d 697 (7th Circuit 2011)
