My 7 year old spent hours coloring through this book and reading the information about each animals (he loves learning about animals). My only issue is that the book is too small (not enough pages) in my opinion. One page has the colorized version and the other page has where you can add the colors in by looking at the already colorized version for reference. I think this is good but there should be a lot more animals and pages considering it is more of an activity book than anything. The price should be a little lower.

Absolutely beautiful pictures...

Great illustrations to use for Sunday School discussions.

These are great, but hard to find and purchase. You color on one side and the other side shows the "natural" colors. My 5 year old daughter moved away from normal coloring books to these. Unfortunately they are fairly limited in number - very nice though!!!
