Great series

My 4 year old is using this (it was recommended by his piano teacher) and it is dead on for him. They did a great job making this work for very young kids. It slowly introduces concepts and does little things like showing which hand is left and which hand is right.

Perfect for what I needed

My son has been using this book to learn piano. He likes it so far. It is the right level for beginners.

I'm using this book to give piano lessons to my 5 year old niece and she loves it. I love that the course has age appropriate lessons for younger students, and she loves doing her "homework".

Excellent

Great book for beginners

Our 6 year old just started piano lessons and his teacher uses these books. So far, they're great!
