M Is For Mama's Boy (NERDS Book 2)

Synopsis

NERDS combines all the excitement of international espionage with all the awkwardness of elementary school, and the results are hilarious. A group of unpopular fifth graders run a spy network from inside their school. With the help of cutting-edge science, they transform their nerdy qualities into incredible abilities! Their enemies? An array of James Bond-style villains, each with an evil plan more diabolical and more ridiculous than the last. Publishers Weekly raved: "Buckley has a flair for exaggerated humor." School Library Journal said: "Funny, clever, and thoroughly entertaining."

These books are AMAZING! My son read every book he could get his hands on and didn't stop till they were completed. They are amazing for young kids who feel like "nerds" are less than desirable in life and always get picked on. Well guess what? These book will prove you wrong! I would highly recommend them to any child who is looking a series of books to start reading. I know this is book 2 but you just can't go wrong with this series.

Requested by my grandson.

Our son LOVES this book! He has been super excited about reading the entire series. I had originally purchased the first one for him and had to almost pull his teeth to start reading it. Once he read about 10 pages he was like, "Mom, this is the BEST BOOK EVER!" He's 8 yrs. old and in third grade. I was amazed by all the bigger words he is now breezing through reading with this series! The books are funny with engaging story-lines and characters. Very well thought-out plots with the occasional potty humor to satisfy any youngster.

My 8.5 year old (3rd grader) loved NERDS - Book 1 (which he picked up at his school library.) When he finished it he was so excited and almost distraught that it was over. The edition he had did not show any other books in the series. He was so excited to unwrap Book 2 that he went to his room to start reading it! I personally have not read the book but it has the stamp of approval from my kid who loves to read.

Got this for a 10yr old he enjoyed the book.

good series for young adults

Great bookBest NERDS book yet!! LOVED it!! finished nerds 1. I was so board, and than NERDS 2 came out and I was spyked and even happier when I read it, it is better than the first.GREAT details and WONDERFUL story!! had a great time reading it and can't wait to see what happens in the third book!!!!

If you've read the first NERDS and we're anxious for more like I was, get this book and shove the anxiety down. This action packed adventure strays from the world of Braceface and ventures into the family life surrounding Gluestick. get read to stay seated for a while, because you're not going to want to put it down!!!!
