We all know how fast paced the world has become and our work days are getting longer and longer. You may feel that there is no time to romantic and intimate with our partners like we used to. It's much easier to just watch TV the rest of the night after putting the kids to bed, than it is to take initiative to have crazy wild sex. And the days you do have sex, it rather lacks excitement and is more of a fast release than passionate love making. If this is what your sex life has turned into, then you're not alone. The fact that you decided to pick up this book proves you truly care about your marriage and are willing to put in the work. With these NEW strategies you'll learn NEW methods that'll draw you closer to each other in new, fun and exciting sexual ways. (and frankly I'm relieved your marriage is worth more to you than the price of a \$2.99 book! That's a pretty good deal for someone who wants to revolutionize their sex life, or wouldn't you agree?) In many ways this book is also Divorce Prevention 101. Did you know 90% of spouses that cheat do so because they feel SEXUALLY UNFULFILLED in their relationship? Do not let that happen to your marriage! Start taking your sex life to the next level today, don't let life pass you by. Customer Reviews

I have read 100's of books and articles about maintaining your sexual relationship in marriage and this book has one of the best sections of describing the differences in the way men and women relate to sex. I enjoyed that Rochelle approaches sex from the standpoint that both men and women desire and need it, despite approaching it from different angles. The only "beef" I have is that although the book was very good, the links at then end are high pressure sales to purchase additional material that you "have" to have. I didn't appreciate the high-pressure sales tactics at the links and unfortunately, it diminishes the trust I have in the author. I still gave the book 5 stars, although I'm tempted to take the stars away because of these links.

An excellent aid in adding and keeping the fires of passion burning. We to soon take our mates for

granted. This lets us know that maintaining interest in the marriage bed is a preventative to wandering.

Elementary advice. Plus major typo on the back cover, who edited this?

Very well written with much information on the how to.

Very weak. Very general not much that you wouldn't get from an afternoon talk show .

good book

I think I sold it the next day at a garage sale or just donated it... dumb

I picked this up for some fun beach reading...didn't realize how much I would get into it! Very organized in how it presents things and informative. It gave me ideas and perspectives I wasn't expecting. My husband likes that I'm reading it too! A good way to spice things up :)
