Customer Reviews

Just finished Vol 11 of the series. Here's 18 more shockers many of them I had never heard of. Robert Keller has a way of getting right to the point of a story. I have read most of the stories in this series and found them all very interesting albeit scary. I highly recommend this or any of his books to anyone that enjoys true crime.

Great true crime book with 18 chapters, each about a notorious murder case. Anyone into true crime will love this book

This author never disappoints, and once again another good read

I really like reading books by this author, especially when they are short stories in one book. My preference jumps from a book of one crime to a book of multiple crimes and different killers.

Short, concise, stories. Not bogged down with detail. A great author for nonfiction. Recent as well as far past cases. Very interesting and yet, very disturbing.

Love

18 cases of bizarre crimes stories! This was an easy read, as I read about each crime when I could, then went on to read more stories. The crimes are described so matter of factly. I find this refreshing, as so many "true crime stories" include the emotional responses of the author. Great job

on your concise, easy to read true crime stories Mr.Keller. I truly appreciate this, thank you!

Robert Keller has prepared another feast for true crime fans. Eighteen cases of diabolical murder are included in this book. Only five were known to me. One case involved a 12-year-old killer, and another two 16-year-old girls. This book contains the usual number of errors for which I have deducted one star from my rating.
