Customer Reviews

Ashley Evanson lives in San Francisco with her husband and two children.

I bought this board book for my sister who is pregnant and decided to add another of the "Hello, World" series, after seeing how cute this one is. The illustrations are absolutely adorable - it's not often that you find such beautiful stylized art in a children's book. The only thing is, the parent reader will need to brush up on a few French words (patisserie, Louve, etc) before attempting to read this out loud to their child ;) The physical quality of the book is great, too - the board pages are thick and high quality.

Such fun to read to my toddler! I bought the whole series. He is at just the perfect age to learn his colors and numbers. Soon he'll be ready for shapes and opposites. So glad I bought these books. I highly recommend them.

What a beautiful way to introduce a child to shapes and give them a little insight in the world. The artwork is very pretty and brings out my inner child. :)

I love this series of books for my little ones! It does a great job of combining learning about the world and cities/counties in it, learning literacy, learning about shapes and colors, etc. It is such a cute book that everyone in our family enjoys reading to my daughter. I would definitely recommend this and will consider buying it again in the future for baby shower gifts, to welcome new baby, or early birthday presents. I love any way that I can introduce an early love of travel, culture, and reading to children and this does all of that. It is so fun to read these books and remember going to Paris, New York, etc. I hope they continue to expand the series and add even more cities and countries to the mix!

We bought this for our daughter before a recent trip to Paris. So many key sights were included! It's not a story, but a primer, but the images were still engaging enough to hold her interest.

We bought this book for my 2 year old son to get him excited for our upcoming trip to Paris. I was afraid that it might be too "girly" since the cover was pink and purple but it was not! My son loves the colorful illustrations and the story is simple but sweet. He's been wanting to read his "Paris" book a lot :) Very cute book for Paris lovers!

I am lucky that my son loves books, but after reading the words moo baa laa 900 times, sometimes your mind drifts off to Paris. Then to my surprise I found these amazing children's books that could teach my son while reminding me of the good old European days (pre children). This book is bright and colorful and shows all the landmarks of Paris while incorporating shapes. I recommend the whole collection!

The book is lovely to look at. The illustrations are gorgeous and very appealing to little ones. My baby is obsessed with shapes and naturally obsessed with reading this book.
