Customer Reviews

The American Cancer Society publishes books that advance the Society's mission, expand its reach, and reinforce its role as a trusted provider of high-quality, science-based cancer information. Consistently accessible format delivers reliable, unbiased, comprehensive information to support better health care decisions. Terri Ades, RN, MS, AOCN, is the American Cancer Society director of cancer information in the Health Promotions department. Ades directs strategic initiatives related to quality of life, symptom management, health promotion, and patient education issues.

Not a bad book, and it's a pretty easy read, which is good. My only negative is that I purchased the Melanoma Skin Cancer Quick FACTS book as well, and there is too much of the same text. These two books clearly could have been, and should be combined. You don't need two separate books. Good information, though.

Plenty of facts and well written. Answered all my questions and did so in an easily understandable way. I'd recommend this book for anyone wanting more info on this disease.

Good book. It delivers the facts.
