Mud, Blood And Motocross

Synopsis

"There is no way Billy did this! That's not what you're saying is it?" Even as the police drag Billy Mackenzie away from the crime scene of a murdered girl, Nick Bishop cannot believe his friend is guilty. But as he uncovers the truth about Billy's relationship with the beautiful victim, Nick finds himself in a race against time and on a terrifying collision course with a ruthless drug ring. Mud, Blood and Motocross is full of action at breakneck speed, but you don't need to be a fan of extreme sports to be carried away by this exhilarating ride.

Customer Reviews

Mystery, excitement, suspense, action... and a little bit of romance. This book will keep your young reader turning the pages. A little bit edgy, but about a perfect balance between what parents will allow and what keeps kids interested. A surprisingly good and interesting book for girls as well as boys, which is not something you would expect from the title. I started reading this to my seven year old, and he took over and read it on his own, just couldn't wait for bedtime. Vocabulary and sentence structure is also well done for younger readers, challenging but not frustrating. I'd particularly recommend this if you are looking to engage a reluctant reader. The off beat topic and fast pace keep them interested. Put it on the summer reading list!

I read this book to check for young adult age appropriateness and have to admit it sucked me right in. The author did a great job of incorporating dirt bikes as a frame work and back drop for a page

turning murder mystery. Don't let the title fool you though, you don't have to ride a bike to enjoy this story. Its actually refreshing to find a YA book that a teen male could read and not think was "lame". Everyone I've shared and recommended this title to has given it a solid thumbs up. From the feedback I got, it seems a number of kids are not interested in sparkle vampires and alt future love triangles. Patiently awaiting book II.....

A quick-paced story, unexpected plot twists, and memorable characters. There was suspense galore and it definitely made it easy to want to keep reading. This book will keep you guessing until the end and make you excited to see what else is in store for these characters.

A mother in my daughter's class recommended this book for my 10 year old. My tomboy daughter enjoyed the strong female characters in the book, the action of the plot and was quickly pulled into the suspense of the novel. She is looking forward to reading "Crash and Burn", part 2 of this series.

Loved this book! Fast paced, excitement, and intrigue... everything that you want in a murder mystery novel. I've already been drawn into the next one, can't wait to read it.

This book was great, I couldn't put it down. Fast paced and exciting, Even as an adult I was enthralled! I can't wait for the next one...

I wasn't sure what to expect when I picked up Mud, Blood and Motocross. Surely there's motocross -- right off the bat -- and then it gets exciting. The strong theme and hard-riding dirt bike racing analogies are wonderfully interlaced as the race against time pushes you to keep up with this suspenseful and well-crafted mystery thriller. With as many twists and turns as a world-class motocross track, the clever plot takes readers on a wild ride that doesn't let up until the checkered flag. While geared for a YA audience, it stands perfectly well among today's leading titles of the adult murder mystery genre. Wade has delivered a taut, innovative and surprisingly sensitive tale that keeps you pulling hard for its four unwitting young heroes, both on and off the motocross track. Racing to pick up number 2.

More than an action-packed mysterySet in rural Colorado, 15 year old Nick Bishop searches for truth, justice and a murderer in his small town. But the story is more than just an action-packed mystery. It is also a story about growing up, falling in love, and staying loyal to friends.
