Synopsis

We are living in a land rich with beauty and wonders. "Life" is fortunate that these stunning settings have attracted many of the country’s - indeed, the world’s - most talented scenic photographers. From the awe- inspiring work of Ansel Adams to the jaw-dropping photography of Galen Rowell to the serene pastorals of Joel Meyerowitz and Michael Melford, this is art of a high order. And their subjects are incomparable: the Grand Canyon, Big Sur, Yosemite, Yellowstone, sublime Nantucket island, the San Francisco skyline, the Amish country of Pennsylvania and Ohio - 100 beautiful sites in all. In words and pictures, "Life" takes you there.As a special bonus, "America the Beautiful" includes a print of one of Ansel Adams’ finest scenic photos, suitable for framing. This is a rich and beautiful book about a beautiful land.

Fast shipping, as advertised, good product at a great price.

I got this book to cut the pictures out of it and hang up around my room for inspiration. The pictures are so beautiful that I had a hard time choosing between some of them. They are so brilliant and clear. Everyone comments on them and I love them. They really brightened my room.

too much writing, would recommend America: a visual journey if you like a lot of pictures

Beautiful gift book - perfect for coffee table.

Beautiful book! I bought it for my husband as a gift - just great to see all the different types of places in the US. Only thing was the jacket was a little ripped on the bottom in the spine, but I was able to fix it with a little tape on the backside of the jacket. My husband didn't even notice.This was exactly what I was looking for!

It was a nice book with lots of lovely pictures. I bought it for an elderly ct with dementia and we looked through it together on xmas eve.

I bought it as a gift.....Gorgeous photographs of America.!!!!People might give more comments if "X" amount of words weren't required !

This is a great book about all the wonderful places in America. It is nice for children and adults.
