Build It! Things That Go: Make Supercool Models With Your Favorite LEGO® Parts (Brick Books)

Synopsis

Race car, snowmobile, double-decker bus...what will you build today? From the popular series of visually rich instruction books for LEGO® creations, this book highlights cars, trucks, snow machines--even scooters--that move people around on land. Customized for children ages 5 and up, there's a range of creative models to put together using the LEGO® Classic set 10695, LEGO® Architecture Studio 21050, LEGO® Education Wheels Set 4598357, or bricks that LEGO® obsessives may already have at home. Each book in this interactive series contains 3-5 “dioramas” featuring a diverse range of models. Full color, step-by-step diagrams guide you through the process, enhancing the fun.

Jennifer Kemmeter spent her early career working in marketing and economics at a multinational firm. Her twin sons became captivated by LEGO® products early in life, and as she built models together with them, she was thrilled to see her boys so engaged in a creative and problem-solving activity. As their passion became contagious, Kemmeter began a new career as a designer, author, and publisher of children's books.

Great book for little builders that are just getting into following build instructions.
