Customer Reviews

SAVE YOUR MONEY!! You're better off buying all the works seperatly. There are several different engravings in this volume. Some if the print is so small and crowded, there's no room to add fingering without confusing yourself further. Some are so heavily edited, they have no business being published in the Baroque repertoire.The only reason I purchased the book is there were a couple of composers I wasn't familar with. Those pieces ended up being no big deal.I'm glad the book was inexpensive. It makes the mistake of buying it not as bad as it could have been.
