This handy book will introduce you to the original Pokemon Trading Card Game, before all the changes in gameplay rules and mechanics. Good to look over if you want to play with the older cards.

My Grandson and Son-In-Law found the book to be very helpful in understanding how to play the game of Pokemon.

Good, apart from the fact that the cover was a little bit sticky. But I am very happy with the purchase.

Great information.

I bought this book for my 7 years old son with his first Pokemon deck, and started reading it during my flight from Sydney to Cairo. It was very interesting to the extent that I finished it all in one shot. It is truly one of the most wonderfully illustrated book I have ever seen. It helped me a lot to understand the Pokemon phenomenon and communicate with my son. It helped him also to share the Pokemon fun with his peers. The CD, which comes with the book, is excellent for both learning as well as practicing the game, and deserves the price itself.

The book was defected upon arrival. Was not new; looked used. Front cover ripped from the corner to the middle and bottom corners wrinkled and worn. Arrived on time. Unsatisfied, it was supposed to be a Christmas gift and now I cannot use it for that because it is so damaged
