Best Sellers Rank: #23 in Books > Literature & Fiction > World Literature > European > Italian

#65 in Books > Audible Audiobooks > Language Instruction > Other Languages #243

in Books > Audible Audiobooks > Fiction & Literature > Literary Collections

Customer Reviews

I had already read the authors other two books of Italian short stories for beginners and listened to the corresponding audiobooks, so when this book was released, I bought it right away. These

stories are definitely more challenging, as they use more sophisticated vocabulary and there is much more frequent use of the remote past tense. I read the whole book on plane home from the Virgin Islands, about five hours, interrupted periodically by the beverage services and a chatty child sitting next to me. I would guess that's the level is about B1-B2. There are more adult themes than in the prior two books, not that the book deserves any sort of a parental advisory, but there is action, violence, relationship struggles, and stalkers. The introduction explains how these books are to be read, a simple six step process to promote maximal comprehension and absorption of the language. I plan to go back and re-read these stories a few times in order to get the most of this book, but with the exception of two chapters near the end of the book where I had to do a little re-reading because I didn't quite grasp the beginning of a story. However, the first two books had so improved my reading in Italian that I found these intermediate stories to be at just the right level, the chapters in short, digestible chunks, and the vocabulary useful to me at this point in my learning. I hope a set of advanced stories comes out next, I would eagerly buy such a product!

I love this book. The stories are engaging; and the level is appropriate for me. Although I have studied grammar at the highest level, I realized that what I needed at this point was reading material at a somewhat lower level. I have been able to follow the thread of each of the stories with only minimal linguistic challenges beyond the vocabulary highlighted by the editor. It has been particularly satisfying to assess my comprehension with the review summary and multiple choice questions which follow each chapter. Finally, I love the fact that it is entirely in Italian, forcing me to rely upon the skills which I already possess, and encouraging me to think in Italian, which unfortunately was not the case when initially I undertook the study of this particular language.

these are great little stories for people learning Italian. It helps tremendously with language skills. Quite enjoyable with some vocabulary words, a summary of the story and questions to make sure you understood it.

These are short stories, and they are pretty good! Easy reads, interesting enough to keep you reading. Good level, and the reading level gets a bit higher as you go. Definitely recommend this one.

An excellent step up from the beginning level. A good challenge for internistExcellent step up from the beginner level. A good challenge. Looking forward to more.

Very inventive, easy to understand and captivating short stories for the intermediate learner of Italian to understand ! I highly recommend this book for the Italian learner !

Satisfies its purpose.

After reading the Italian short stories for beginners, I knew I had to get the intermediate book. I eagerly dove in, even though it was a bit slow going. I could tell it would (as it should be) be a bigger challenge for me than the other two Italian books, especially considering B1 material is more of a stretch for me. But, B2 is where I want to be, so I'm pushing through. The stories are much better than looking for (still grammatically complicated) children's books. And I feel a big sense of accomplishment when I finish a story. If you're learning Italian, these short stories books are some of the best things you can buy to exercise your brain in a fun way.
