Thank You

This a wonderful book that I would recommend for anyone interested in adding to their kitchen library. Very easy to read and follow recipies.

The book has some good recipes in it, but the seasonal setup format is not necessary. I would have liked if the recipes were arranged by category instead of seasonal. Makes you jump around the book to much.

It's okay, but I have difficulty using a cookbook from my Kindle. I would not purchase another one in this way.

A

Yum!

The cookbook is okay. I haven't made anything but looked at all the recipes. Granted I got it for free on my kindle, and you get what you paid for...or in this case more than I paid for. No color photos, but recipes look fairly easy. I'm sure you can get a \$20 with nice color photos and better formatting... but it was free.

This book is OK but NOT Great. Coming from a Polish background, there were several recipes that I was looking for and was disappointed that they weren't in this book. It's really hard to purchase cookbooks online, as you can't check out the directory beforehand, to be sure that it's what you're looking for.
