Great insight to channeling your inner diva

This is a quick and fun read. As a single, independent woman in a big city, I often live in my masculine "get it done" energy. Reading through Kitty's book was helpful for me to visualize how to practice my feminine energy, seduction. It is a fun read, and I love her ideas about how to bring seduction to life in your own life, from small ideas to big ideas. If you're looking for a fun read to help you tap back into your feminine powers, this is a great read.

This book wasn't as informative as I hoped it would be, it was more a biography than anything else.

Every woman should read this book! It is written with wisdom and humor and heart--like water for all of those depleted parts of ourselves that we have let "dry up". The book also has exercises that are easy and fun to do. The writing itself is seductive as if Kitty is weaving a web around you with her words, and you are happy to be entranced! I have an entire new understanding of "seduction" and the power of being a woman.

Amazing and empowering book with plenty of humor and compassion and vibrant support!!

Kitty has touched me by describing her own awakening and creativity and her honoring of feminine heroines who have changed the world by following their beliefs and passions. The book is filled with practical and fantastical ways to bring out your own divine feminine. And the pictures are gorgeous!

A delightful journey towards a more sensual and pleasure-filled life.
