Customer Reviews

This is an excellent supplement to other travel and language guides that we had already picked up. It is organized very well and the size and weight make it convenient to take with you during the days you are touring. It has an abbreviated English/Italian and Italian/English dictionary in addition to common phrases you will need for shopping, restaurants, transportation, etc. The clear plastic cover will protect it from the elements and the red wine.

Very helpful book when you plan to go to Italy. You can pack it since it is a small book. Highly recommend it.

The 'at a glance' series of books is great for travel since you get maps and other information in addition to the phrases and dictionary that you expect. I like the layout, and have several languages. Use it alongside Pimsleur.

Best little book to take along to Italy and study everyday phrases beforehand. More than just a language book.

As a newcomer to learning Italian, this book will help me on my journey. Seems to be exactly what I need to assist me in this endeavor.

After searching local libraries and browsing many different types of phrase books and dictionaries - I settled on this one and am happy with it. If you need a small book (but with print big enough to read) this is a good choice. It has a small dictionary in the back (not comprehensive - but enough for my purpose without adding to the weight of the book). To augment this I have also been listening to language CDs. The goal is not to learn to speak Italian but to feel like you are making an effort to communicate while on vacation. Although there are chapters that won't apply to my trip, unless everyone writes their own book - none will be perfect. I like the color coded pages and will augment that with post-it tabs for the areas I will use a lot. The phrases all have a pronunciation guide behind them which helps me remember what I learned on CDs. The removable plastic cover is a nice touch. The front and back pages feature maps of major Italian cities.

Excellent

I'm very pleased with this purchase. Not only can I study some Italian that will be useful in the future, but it also provides a sense of direction while on your travels. :]
