Boondockbob's Guide To RV Boondocking

Synopsis

If you've been tempted to expand your RV Lifestyle beyond established RV resorts and campgrounds into camping off the grid, this ebook may be what you need to know to kick off your adventure. I've been camping since I was a Boy Scout and RVing for more than 40 years, 17 of those years fulltime with my wife, Lynn, in our Bounder motorhome. A good portion of the time we spent boondocking – camping off the grid – enjoying the freedom away from crowded campgrounds, exploring America's wild lands and National Parks, camping along our scenic byways, on the shores of mountain lakes and streams, in the depths of our national and state forests, and in the wide open spaces of the Southwestern deserts. In this ebook I hope to inspire you to take the road-less-traveled and find your own private campsites – and I show you step-by-step how to do it easily and painlessly. Happy Travels.

Customer Reviews

Good book and worth the read. Valuable tips for anyone wanting to get off the grid. Getting reservations at regular campgrounds is tough and boondocking is a great alternative and a way to avoid the crowds. We like our privacy and are looking forward to trying some of the national forest and BLM areas as suggested by the book. 4 stars only because the book is rather short with no specific information regarding any specific campgrounds in my home state of California.

As a newbie to dry camping and boondocking, this book gave me confidence. I appreciated getting advice from an experienced camper! I will refer back to the book and probably purchase others by this same author. See you on the roads!

Good value for the cost. I bought this for my Kindle. It is somewhat basic for those already having done some research. Still I found a few tips. Additionally, I think this book would be helpful for those trying to determine if boondocking is for them and why they would consider boondocking.

Very informative. I am still unsure if I will be okay doing this as a single camper. Going to try it in states I am most comfortable in first.

Some excellent tips and advice for boondockers. The only reason I didn't give 5 stars is some of the links/websites are no prob On her running and some of the info is duplicated in his other books but.....definitely worth the money !

This is a very comprehensive guide and has a lot of detail and references. Very good for anyone starting out.

great info

Definitely knows his stuff. I also liked his easy going style of writing - throwing in some humor to keep it fun to read. All the Quick Tips were good too..
