Customer Reviews

Not as formative as other history books.

Great book. it discloses all details of Islamic culture and religion in a few words. In the middle of the

book there is a pretty interesting information, which is surprised me, I never met it before. I highly recommend it.

This information is valuable for the non-Muslim to learn and benefit from.

The book does have some valuable information, but is loaded with grammatical and spelling errors. Obviously never proof-read.

I wanted to know the basics of Islam as there is a lot of confusion regarding its true nature based on what is seen in the world today.
