Barron's AP United States History Flash Cards

Synopsis

Students preparing for the Advanced Placement U.S. History exam will welcome this revised and updated set of flash cards. The cards encompass the entire AP course and offer students the flexibility to study American history in ways not available with textbooks and study guides. The 500 cards run chronologically from the Colonial era of the early 1600s to the present day, and are divided into seven general categories: Arts and Sciences, Domestic Policies, Presidential Matters, Wars and Foreign Relations, Economy and Business, Legal Issues, and Society and Culture. They are numbered and labeled so that students can arrange them within a chronological time frame or according to any of the above-noted categories. Students can use the enclosed metal ring to rearrange the cards in any order that fits their study needs. Each card has a small corner punch hole to accommodate the ring.

Customer Reviews

Not good, it has useful terms, but it's really not worth remembering, just read your text book and pay attention in class, I got a 4 on the exam, I only studied like 3 cards from this set

By the time students take this class, they should know what study methods are most beneficial to them. Review cards are a helpful tool that can quickly deliver the needed information. As far as the test this past May (2015), I did not notice any inconsistencies between the cards and new curriculum.

I hate companies who try to make a buck off of standardized tests but I must admit AP flash cards, especially this one for US history really helped me out. If you don't have time to make flashcards yourself (which is a better method of studying), then I would definitely recommend this product. Good luck, study hard so you can save money on college, just saying.

EXCELLENT

The cards are really great. I am taking APUSH this year and they have been super helpful. One person in my class pulled these out in the beginning of the year and now, practically my entire class has a set of them. I use them to see how much knowledge I have on a particular subject and to see what I have to study before a test. I haven't started studying for the actual AP exam yet but I can only imagine that these cards will be a great aid.

Excellent review aide for AP exam. Would have liked to have them throughout the course to assist with learning. Well written and good prep for the exam. Many of the questions are almost directly from the cards. I got a 5 on the exam.

It was my first time buying a set of flashcards like this. I was surprised when I opened the box. So many flashcards! You don't think much when you read it in a description, but when you actually see the product, you will realize what a great value it is. The cards cover everything major in U.S. history and even has an index of cards that will easily let you find any card you need. The ring that comes with it helps a lot if you plan to study on the go. All in all. These cards are great.

Great for my daughter to use during the school year. This allowed her to take the college level exam in High school.
