Langenscheidt Standard Dictionary German: German - English / English - German. 130,000 References

Synopsis

The authoritative reference work for serious users
The Langenscheidt Standard Dictionary German is a comprehensive reference work containing vocabulary which reflects general present-day usage as well as up-to-date terminology from such important fields as information technology, politics and society, culture, medicine and sport. Detailed grammatical information as well as fields, semantic and register labels enable the user to understand and employ the headwords more accurately and to distinguish between the translations in a reliable way. About 130,000 references in Langenscheidt quality
Wide range of vocabulary with a wealth of idiomatic expressions
Specialist terms from many different fields
Full pronunciation of German entries
Extra information on German grammar
Headwords in blue for quick reference
Long-lasting vinyl cover

Customer Reviews

The leading classroom reference and the favorite of students and teachers in high schools and colleges, this dictionary offers a wealth of entries in a clear, simple and easy-to-use layout. 130,000 references; All headwords in blue for quick reference; Broad range of entries including idiomatic expressions and illustrative phrases; Specialist terms from many different fields; Detailed grammar information; The authoritative reference work for serious users

The cover is some type of plastic and it is pretty tough except for the fact that it is only held by gluing it to two thin pieces of paper, one at the front of the book and one at the back. It is not

secured by any other means. So, if you drop it or you are not cautious how you open it or you hold it by the cover, etc. it will probably tear off. The page binding appears solid though.

Das beste Woerterbuch in der Welt! So, I purchased one of these because I remembered as a child my mother having a book that resembled this (the yellow with a big bluish green "L" on the front) and this being an updated version of it, and I knew her book was great... That, and I need it for not only class, but just my everyday life. This book is the real deal. I bought the soft cover for its ease of throwing it in my backpack or something and it molding to where it's in rather than creasing a hard cover. Right out the box I knew this book was the best. It's loaded with pages that are loaded with words, and it just excites me knowing I'll be increasing my vocabulary and fluency with the more professional words, and even everyday German words I used to use as a child. Native German.

the physical size is TINY!. The cover image is misleading: i thought the book size was regular, and, therefore, i also was expecting the number of dictionary entries to commensurate. Unfortunately, the book is tiny and the number of words is small - maybe good for undemanding travel.

This dictionary was bought to replace a worn out 30-year-old version. It is a very nice updated dictionary.

Overall this dictionary seems very nice-- the cover appears durable, the entries are easy to read, and the size is portable. However, as others have mentioned, there is a problem with the binding. In my case, pages 601 through 660 are duplicated and have taken the place of pages 877 through 936. I will be returning this dictionary and seeking a replacement.

Best German dictionary I have found....has more and more diverse words than any of the others. I was very frustrated unable to translate some words using the other dictionaries, but with with one, I have no problem whatsoever.

This particular dictionary is perfect for most learners. It's more substantial than pocket dictionaries but not too overwhelming (or too big) as are the full-sized dictionaries. I think someone from high-beginner to middle-intermediate will find that this book covers their needs. For people in the very beginning of their studies and for those advanced in the German language, you may want to look on. I suggest that very beginners (I mean the ones still learning greetings, counting, etc.) get an

illustrated German-English dictionary as these focus almost completely on vocabulary so they should help with vocab acquisition which is super important (also so you won't be at a loss for words like me). For advanced learners I suggest that you use the Langenscheidt German dictionary, one that defines German words in German. I rate myself at middle-intermediate so personally I find this dictionary best suites my needs.

I am returning this item because it is missing fifty pages. While flipping through the dictionary I noticed that the page numbers jump from 623 to 674 (the entire letter U is absent). I am deeply disappointed. I generally do not return products because of the annoyance of going to my local post office, but I will return this and demand a refund, because a dictionary lacking 50 pages is utterly unusable.
