Customer Reviews

Why can't these books come out in the morning? I spend half the night reading because I can't put the book down. This one is just as good as all the rest. That is to say outstanding.

While waiting for the next installment of this series I read for a second time all fifteen books. They are awesome. There is nothing comparable on to the pure entertainment these books provide. Closest was Dahners' Ell Donsaii series, but apparently he has abandoned the series in favor of other works. Re-reading these books was a sheer pleasure and provide some insight and nuances I missed the first time around. The setting for the Kurtherian Gambit series is environmental rich as evidenced by the number of off-shoot series that are based on Kurtherian background. It seems that in writing a review one must comment on the character development in the book. In this series the characters are well developed and complex complete with their quirks and warts. Thankfully, the author has stayed away from what I call the Greek Hero tragedy complex wherein the protagonist has a fatal character flaw that brings about their downfall. Here the heroes and heroines are strong and steadfast the villains are numerous, and not all of them are one dimensional. The storyline for the entire series is fast paced and suspenseful. I have stayed up until three a.m. to read these books. I can not praise them enough. They would make a dam good television series.

We always knew they were in Space and preparing to go through the Gate to challenge the Yollins who thought to subjugate Earth. But would anyone expect the exit party on Earth? That was nicely done--a bit of romance, a bit of nostalgia, and a bucket of loose ends that needed stomping. Good fun! You wonder what could be next when you hear echoes of "No Coke. Pepsi" from the Blues

Brothers. You think you know where the Marvel Universe ends, and then you find Agent Colson in the vicinity of something sort of alien. You know you're reading something above average when the Universe watches as the Queen Bitch weeps. And when the battle for Yollin heats up, you know the Etheric Empire has been just as busy building a fleet as Blackhawk, William and Marcus have been busy brewing beer (and, maybe, more?). That fifth star must have magnets, or gravitic engines. I keep trying to pull it down as a protest against copy editing that still needs work. Then that star flies back into formation because the story is just so fast and so fun. The Kurtherian Gambit series is available as a direct purchase for Kindle, or as an indirect purchase through the Kindle Unlimited program, which is how I accessed it based on my monthly payment to KU, which then compensates authors whose books get read via KU. It's not like I bought a used book at a rummage sale for 25 cents (hardcover) or 10 cents (paperback). It's exclusively an ebook so I had to pay the piper somehow. Seems like both paths should justify the "verified purchase" label when reviews are being prioritized. So far, 15 thumbs up and counting. Next stop: *Never Surrender* (The Kurtherian Gambit Book 16)

Ran across the Rise of Magic series and was intrigued, so decided to purchase all 16 books in the Kurtherian Gambit series. I then spent the next 4 days reading all 16 of them, then moving on to the Second Dark Ages and Trials and Tribulations series. This is a very entertaining and intriguing take on Vampires and Werewolves. I am eagerly awaiting book 17. And while there were warnings about the cussing in the book I found them to be hilarious. As far as military Scifi goes, I would easily rate this up there with some of the other major authors in the genre, such as John Ringo's *Possleen War* or *Through the Looking Glass*. Looking forward to enjoying the rest of this series, and the best part Michael Anderle seems to be a fairly prolific author so not a massive wait between books.

I'm not even sure its worth buying anymore books by this author (or any other authors he's been collaborating with on the side stories) he's getting so side tracked by the other books in the side stories that I think he's starting to get bogged down and not writing as much in the main story arc. His lead character is starting to get predictable I mean a bad thing or situation happens and she curses a lot (to me an adult cursing that much just makes me think shes just an immature child trying to prove that shes an adult) her face starts to glow like a halloween mask and she arrogantly stats something about "we will not let them get away with this or that" or "we will destroy them for what they did" or something. Now I'm sure Michael's friends or family will run to his defense (and make it sound like they are nothing more than ordinary readers, I've had that happen before when I

left a not so nice review) and try to humiliate me and make it sound like I know nothing but I don't care this series started out pretty good (other than the immature cursing) but now its taking so long between books I mean at one time he was putting out a new book (in his main story arc) ones a month, now its more like two or three months and with all the hints in some of the other book I can almost guess whats going to happen in the future books.

I laughed, I cried, I snorted coke out of my nose. IT WAS AMAZING! Heading back to re-read right now.
