Star Wars Coding Projects

Synopsis

Learn to code games and use Scratch, guided by your favorite Star Wars™ characters! Star Wars Coding Projects is a step-by-step visual guide to coding fun projects in Scratch and shows you everything you need to know to create cool computer projects, animations, and games. Create your own sprites and use them in your projects. Build your own characters, navigate a spaceship through an asteroid belt, and go on a jetpack adventure. Learn essential coding skills, share your projects with friends, and challenge them to beat your scores. Each project consists of simple, numbered steps that are fully illustrated and easy to follow, with inspiration from Star Wars. Coding games have never been so easy or fun. © & TM 2017 LUCASFILM LTD. Best Sellers Rank: #32,740 in Books (See Top 100 in Books) #17 in Books > Children's Books > Computers & Technology > Programming

Age Range: 8 - 12 years

Grade Level: 3 - 7

Customer Reviews

Dr. Jon Woodcock has a degree in Physics from the University of Oxford and a PhD in Computational Astrophysics from the University of London. He started coding at the age of eight and has programmed all kinds of computers, from single-chip microcontrollers to world-class supercomputers. His many projects include giant space simulations, research in high-tech companies, and intelligent robots made from junk. Jon has a passion for science and technology education, giving talks on space and running computer programming clubs in schools. He has worked on numerous science and technology books as a contributor and consultant, including DK's How Cool Stuff Works and Help Your Kids with Computer Coding. Foreword Writer: Kiki Prottzman is Education Program Manager at Code.org and a former computer science instructor at the University

of Oregon. As a champion for responsible computing and equity in both CS employment and education, Kiki works with many organizations to improve the experience of girls and women in STEM. She currently sits on the Advisory Board for Wonder Workshop Robotics, and is a member of the Leadership team for the Oregon Girls Collaborative Project. Kiki is based in Eugene, Oregon.
