Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

This is a nice map with the quality you expect from National Geographic. It's rather large being

18"x48" so it's rich with detail. The only "con" is that it will take up some space on your wall. I bought this map for my wife to use to plan some hikes on the PCT. It comes safely packaged and the print is itself is of great quality. If you want a large map of the PCT then this is the map for you.

Great map for inspiration and for a planning guide. Get one for friends and family before you hike the PCT so they can follow your progress. (This is not an item you'll use on the trail, and I guess if this isn't self evident, you aren't ready for your trek.)

The map itself is excellent; however, the line for The Pacific Coast Trail is a little light for my taste. A bolder, blacker line would be better, in my opinion. I actually bolded the line myself with a black marker, and now I can see it clearly from as far as 5/6 feet away.

Christmas gift for my mom to help her track my progress on the trail this year! She absolutely loved it, and it looks great on the wall; super easy to read! Thank you!

I was really looking for a map that I could highlight sections of the PCT that I had completed and I am able to with this map. It is quite tall and has a lot of great info on it. I plan on getting it laminated to preserve the map once hung on the wall still allowing me to use a grease pencil to mark off sections. So glad I found this without it costing an arm and a leg!

I have a friend who is hiking this trail and I am following him through his blogs...this map is most helpful.

Quite detailed. Excellent depiction of topography. I wish the red outline of the PCT were more DISTINCT. I enhanced the route with a fine tip red marker.

Got one for each of the backpackers in my family. It allows them to track the sections they get done each summer
