What an excellent book. My daughter uses this in her private saxophone lessons. The bonus is the CD that it comes with for the kids to play along. The only suggestion I would have to budding musicians is that they need to learn the song without the CD first, then have them play it along with the CD. Once you are comfortable with playing a song, you can then worry about the timing of the music on the CD. Seems my daughter is always half a second behind because she's not as confident with her playing abilities on some of the songs. This is her favorite book though!

This was for our 10 year old son because he was playing junior high music with little difficulty. This was perfect for him. It was quite challenging and he had to practice a lot before he would master each piece! We were impressed with the quality of the music and the exterior of the product as well.

This play-along pack was perfect for my 14 year old son. He has been playing the sax for a few years now and does performing at our church. It was easy for him to read and play. Very pleased and very proud of him with his performances!!!Will purchase more instrumental music packs in the future!

I didn't like that it already had an instrument playing the melody

Very good play along book. However, the names of the tracks were incorrect and I had to edit it to avoid confusion when trying to locate a track for a piece that I am playing.

I love playing praise songs (music) this is a great to learn new songs.

Great praise songs!

love it
