Customer Reviews

One of the best I have read on emotional abuse in childhood. Quick read & very informative about living as a child of a BPD or NPD parent. Excellent examples from personal stories. Helps you see why one truly is affected from this. Not so much as a blame, but why you might logically have severe ramifications from a variety of behaviors that are so insidious & never recognized, yet are extremely damaging to a child. Allows you to see that there are reasons these things alter your life's

outlook. Why it is so damaging. You are not just oversensitive, imagining, or nit-picking. Excellent portion on parents exploiting children, prodigies.

It read more like a textbook and did not flow like a self help book. I was only able to ready about a fourth of the way through before I switched over to Toxic Parents, which was amazing.
