Willmington's Guide To The Bible

Synopsis

For more than thirty years, hundreds of thousands of people from all walks of life have turned to *Willmington's Guide to the Bible* to help them navigate God's Word. In this book, Willmington provides a concise and exhaustive summary of basic Bible information in one volume. It's a complete Bible education in one book – an essential book for everyone's library. Dr. Willmington has updated this classic with twenty-five percent new content, including new sections on all the people of the Bible, the miracles and parables of the Bible, and a panoramic overview of the Bible's events. The theology section has been rewritten in an easy-to-use, question-and-answer format. This is a classic, completely revised, updated, and expanded for the twenty-first century.

If you are a student of the Bible get this book. It is so worth every \$. The language is simple for great doctrine. I love how the information is put before you to make a decision concerning truth. It did not give 5 stars simply because it has no index. You have to flip through the book to find specific topics. I have created a tab system to help me.

When I got this book in the mail, I was so excited. Now as I am reading it, I am falling more in love with the LORD and the bible itself. If you don't love the bible or love God you will not love this book.

This book is something that you need to take time to read because it breaks down so many wonderful things that we as bible readers need to know and understand. Although it's a big book, I still keep it close to my bible. My friend, if you are debating on whether you should get it or not, here is my question for you, "Do you love reading your bible?" if you said, "Yes" well don't wait another second, get it, read it along side your bible and learn more of the God who loves you and desires for you to know Him.

My husband finds this very helpful in preparing his Sunday School lessons Very detailed and well written.

Huge wealth of Biblical knowledge! Excellent resource. It goes through a survey of each book of the Bible and then gives a treatise on each major doctrine of the Bible. Many charts and lists are given for those interested in Biblical facts and detailed knowledge. This is not a commentary but a great tool to use in basic, comprehensive, Bible study. My husband has given this as a Christmas present to a pastor, who later told him how much he appreciated it. Six of our older children have studied through the book and a seventh is doing so now. Different views of hard subjects are presented with a conclusion by the author on why he takes the position he takes. Very well done. My husband has used it for years, as he has been in full time ministry for 30 years. God bless your reading and Biblical study.

I read Dr. Willmington's comments at the beginning of his book. Like him I had been searching for a book to use in my Ministers' In Training(MIT) classes to no avail. I had resorted to producing my own handouts and self-made graphs and charts. As God would have it after all these years I came across his book: Guide to the Bible. It was like a special blessing from heaven. He supports everthing with scriptures, he inserts commentary from other writers, even those he may not agree with, and gives documented references on each commentary. It is very thorough and extensive in its review of the content of the Bible. My students just love it as a text book. They find him easy to read and understand. I commend him and thank God for this book and pray that as many as possible will learn of his book, get it, and study the Bible with it as their guide. ---Dr. Catherine JoshuaAdonai

One of the best Bible study tools available. A must for anyone wanting to get more from their time in God's word.

Exactly what I needed for my studies. Great price and fast shipping.

Using this all the time to expand my walk with Christ - Very handy to review the Sunday messages from our church to get more information - highly recommend this book
