The Law Of Debtors And Creditors: Text, Cases, And Problems (Aspen Casebook)

Synopsis

When you purchase a new version of this casebook from the LIFT Program, you receive 1-year FREE digital access to the corresponding Examples & Explanations in your course area. Now available in an interactive study center, Examples & Explanations offer hypothetical questions complemented by detailed explanations that allow you to test your knowledge of the topics covered in class. Starting July 1, 2017, if your new casebook purchase does not come with an access code on the inside cover of the book, please contact Wolters Kluwer customer service. The email address and phone number for customer service are on the copyright page, found within the first few pages, of your casebook. One of the leading casebooks in the field, *The Law of Debtors and Creditors* features forty problem sets with realistic questions a lawyer considers in confronting the statutory provisions for a bankruptcy case. Explanatory text throughout makes bankruptcy law accessible to students and easier to teach. The material is organized functionally—*as a bankruptcy case would unfold*—making the presentation logical and sensible. By separating consumer bankruptcy from business bankruptcy, professors can select the depth of coverage for each course. An excellent *Teacher's Manual* is particularly helpful to newer professors. The Seventh Edition produces expanded coverage of business bankruptcy topics such as corporate governance in bankruptcy and bankruptcy sales. Discussion of over a half-dozen recent Supreme Court cases on bankruptcy includes *Stern v. Marshall*. Adjustments to teaching approach to means test and other 2005 amendment topics reflect existing law and practice and help students learn. Features: forty problem sets—*featuring the realistic questions a lawyer considers in confronting the statutory provisions for a bankruptcy case* explanatory text makes bankruptcy law accessible to students and easier to teach organized functionally, *as a bankruptcy case would unfold*—logical and sensible separates consumer bankruptcy from business bankruptcy provides greater clarity permits professors to select depth of coverage an excellent *Teacher's Manual*, particularly helpful to newer professors Thoroughly updated, the revised Seventh Edition presents: expanded coverage of business bankruptcy topics corporate governance in bankruptcy bankruptcy sales discussion of recent Supreme Court cases on bankruptcy, including *Stern v. Customer Reviews

Good and straightforward book

Haven't read it all but up until now the book is easy to read (w/ some humor in every page), and the material is divided in digestible sections. I'm not a fan of casebooks but this is fine.

Wonderful, spectacular book.

I thought this book was hilarious. I actually really love bankruptcy after this class. It piqued my interest as someone with a background in business. I'm young and I really enjoyed the references that others might find cheesy. The writing style, small sections, and practice problems were great. Our professor utilized the problems in class so that was probably more helpful than having to do them on your own since you don't really get answers.

An excellent text

Unexpectedly well written. Excellent problems. Humor intertwined for those who pay close attention.

Chief Warren spends more time making fun of Republicans than she does teaching the rules of bankruptcy law.

Received my book in great condition! Very happy
