# Remote Patient Monitoring In Cardiology

## Synopsis

"Cardiovascular medicine is witnessing an explosion in capability for remote monitoring of implantable electronic devices, which provide great potential for improved clinical outcomes and enhanced device safety and efficacy, as well as more efficient and cost-effective care. There are numerous devices now utilized in remote monitoring, including ambulatory ECG recorders, implanted loop recorders, pacemakers, cardiac defibrillators, and cardiac resynchronization systems. Cardiovascular physicians, allied health professionals, and office staff need to understand the merits and weaknesses of existing technology. They also need to become well-versed in management of the new wealth of data these devices provide, design and use of appropriate systems to support monitoring technology, and proper utilization of remotely acquired data in clinical decision making, as well as the demands for patient education and orientation to assure compliance. Remote Patient Monitoring in Cardiology outlines the strengths and weaknesses of existing technology provides a framework for incorporating existing technology into clinical practice with emphasis on professional society guidelines illustrates, through a multitude of real-world clinical vignettes how data retrieved remotely can be used to drive clinical decision making to positively affect patient outcome highlights existing barriers that limit the widespread implementation of remote patient monitoring into practice and proposes areas for development. Remote Patient Monitoring in Cardiology features: Concise, practical, and current guide to appropriate use of these technologies Provides a framework for incorporating existing technology into clinical practice Case-based approach presents real-world examples of applications Highlights barriers that limit widespread implementation of remote patient monitoring "

## Book Information

Paperback: 152 pages

Publisher: Demos Medical; 1 edition (July 20, 2012)

Language: English

ISBN-10: 1936287498

ISBN-13: 978-1936287499

Product Dimensions: 6.9 x 0.5 x 9.9 inches

Shipping Weight: 2.5 pounds (View shipping rates and policies)

Average Customer Review: Be the first to review this item

Best Sellers Rank: #696,231 in Books (See Top 100 in Books) #248 in [Books > Engineering & Transportation > Engineering > Bioengineering > Biomedical Engineering](#) #416 in [Books >](#)

Textbooks > Medicine & Health Sciences > Medicine > Clinical > Cardiology #570 in [Books](#) > Medical Books > Medicine > Internal Medicine > Pathology > Diseases > Cardiovascular

## Customer Reviews

Suneet Mittal, MD, Director, Electrophysiology Laboratory, The Valley Health System, Associate Professor of Clinical Medicine, Columbia University College of Physicians & Surgeons Jonathan Steinberg, MD, Director, Arrhythmia Institute, The Valley Health System, Professor of Medicine, Columbia University College of Physicians & Surgeons
