What Colleagues are Saying:"The text offers a nice balance of the coverage of the material regarding social work and social welfare." -- Barrett Michelle Horton, University of Tennessee at Martin "The cases are helpful in allowing the students to understand the application piece of practice. The cases are at the beginning of each of the chapters dealing with an area of practice in Social Work and it gives the student a glimpse of what social workers do and the versatility of the profession." -- Barrett Michelle Horton, University of Tennessee at Martin "I quite liked the first section "Introduction" because it really introduces a beginning level student to the profession of social work. The "distinguishing characteristics" summarize almost all components of the social work profession. I also like the fact that a variety of fields of practice are discussed in the third section titled "Social Work Services"." - Anita Sharma, University of Louisiana "I like the design and formatting of the text. I also like the fact that relevant information is highlighted, the examples stand out, and the formatting is easy to follow." - Anita Sharma, University of Louisiana "The textbook provides good historical as well as contemporary perspectives on social work which helps students to have a clear understanding of the profession. It emphasizes in the current generalist practice perspectives and answers students' questions about social work and their social work education." - Saman Yaghmaee, San Diego Community College --This text refers to an out of print or unavailable edition of this title.

Older copy, but good material.

best price fast delivery. overall pleased would recommend

The 11th edition is easy to read helpful for tests and full of information. Definitely a lot cheaper! I would chose quality over quantity, and just because it has some pictures does not mean it is a great value!

The book was in good condition, however the cd is not working properly.

REALLY good book.

I needed this book for my intro to social work class, the book itself is not a very visually appealing, but it is full of information. There are no bold terms and bullet points tend to be whole paragraphs, but there is a summery section at the end of each chapter. To study for tests and find key terms quickly it is almost necessary to high-light or underline.

Needed This book for one of my classes and it came brand new and I saved \$50

This book has been rather helpful and interesting
