# The Vietnam War: A History Just For Kids!

## Synopsis

Have you heard much about the Vietnam War? Do you know someone who fought in it? In this book, we will take a closer look at this war that got the whole world's attention. We will find why there was so much confusion and even disagreement among the troops fighting in the war. We will look at what led up to the actual war. Then we will learn about why the war happened. Although the war was really a civil war between the Vietnamese people, it ended up involving soldiers and civilians from China, the Soviet Union, the United States, Laos, and Cambodia. Why did so many people end up fighting? As we will see in this book, each country had its own motive and its own reasons to get involved. ## Customer Reviews

This should not even qualify as a book! This "book" was filled with grammatical errors, typos and weak writing. It seems as if it was either written in non-English language and poorly translated, or it was written by someone with no more than an elementary school age command of writing and sentence structure. This was a complete waste of money and probably the worst "book" I have ever read. Hopefully will take note and discontinue distribution of this junk.

This book was very disappointing. It's highly opinionated which is very annoying to read when you just want to know the history. There are very few pictures. Not one of our favorites.

My son is 9 years-old, and like this book. He loves anything about wars, and civil rights. This book

especially was good for him because he could identify with the viewpoints.

A wonderful introduction to the Vietnam War. An easy read for young readers who are interested in our nation's history.

Great book on target

My son likes the book. Not a lot of books hold his interest so glad I got it!

Good story for younger kiddos
