## Customer Reviews

I found this book to be a wonderful companion to the book "Men are From Mars, Women are from Venus". After two divorces (after over 10 years) and another failed long time relationship, I am finally starting to understand how men are different from women, and also how to apply that to my relationships. I am finally putting more work into myself... for ME. I understand now that when a man acts a certain way, that often it is just how men ARE and probably has nothing to do with me! I am so much more relaxed and calm... and THAT is helping my current relationship tremendously! This is the best relationship I have been in thus far! Yes, it does need some editing for spelling and grammar, but I did not let that prevent it from helping me to learn what the author wanted to teach.

This all really great information and I have no doubt that after applying this advise it will change my life! However I feel like this book was just written and then published. No editing whatsoever!

I got a lot of good information. This book helped open my eyes to understanding some of my negative thoughts and behaviors

I was hoping for something more and not really sure what that would be exactly but I didn't feel like I

got a lot of answers out of this other than to put a halt to negative thinking.

Well written book (besides quite a few type-o's)Some really good points about shutting down negative beliefs from the past.. At my age,47,there are still many many immature men out there

Short, simple, and to the point! He gives you some great tips that you can start implementing tonight when you go out with your girls. Great read...I couldn't put it down

At first I was confused but continue reading your book gave me an insight that negative thinking is just poisoning one's mind. I love your book and will read it over and over. Practice makes perfect.

I think it was great advice and has definitely enriched my life!
