Pretty good guide to know what the changing laws are and as it relates to law enforcement. The power of law enforcement is every changing. The rights we thought we have, we do not. Any day, this Supreme Court can interpret the law that seems to strip us citizens of our right. Next year, M's Coates, who has such passion for the law, gave it straight in her book. However, I came away thinking that we have given law enforcement who can be the most abusive in our society too much power and we the people need to change that. They are here to serve not abuse their power. That is up to us to make those changes.

In the past year I have ceased giving five star ratings to most books, reserving that rating for books that I consider "must buys". This book is one of those. With federal prosecutions running rampant in the country and unknowing farmers and ranchers running afoul of various rules and regulations that only a constipated bureaucrat would know of, this book is very timely. In fact, I would say that for U.S. citizens it is a must have, must read and must read again. If you haven't read "Three Felonies a Day", I would urge you to acquire and read that also. It will open your eyes to why federal prosecutors are too busy to prosecute felons in possession of firearms. There's no money in that. The money is in prosecuting crimes against middle income, small businessmen who have some

assets worth seizing. Our forefathers must be rotating at high speed in their graves at what is taking place under the guise of "upholding the law." Get this book. Read it. Read it again. Every six months read it again. Heed the author's advice. This book is not written for criminals. It is written for Joe Average with some equity in his house and maybe a four or five figure IRA. His crime is that he has not memorized the provisions of Title XIX, Subchapter 145 (D)(III), Subparagraph 1147C(3)d1) violation of which is a violation of the RICO statutes.

Know your rights BEFORE you encounter law enforcement! This book is clear, concise, and very readable! Laura Coates makes sure we understand our 4th, 5th, and 6th constitutional rights as they relate to encountering the US legal system! #KarenRebels #PartyofLincoln #KarenHunter!

It is simply not possible to memorize or recall all the legal tips given in this book when encountering the police. Trying to impress an officer that you know your rights would do more harm than good. The tips are voluminous and technical and one would be much better off asking for a lawyer and remaining silent.

This is a great resource. I highly recommend this book!! I'm very grateful for the author's contribution to a community living in troubled times.

Loved your interview on the Karen Hunter show, afterwards I purchased this book. Unforgotten Heroes L.L.C Douglas Marble

Laura Coates is one of the best attorney's on this topic. She knows the law and this book is a must for anyone, especially people of color.

Great read, and very informational. Everything you need to know to try and protect yourself! I will definitely be sharing with friends.
