My Last Supper: The Next Course: 50 More Great Chefs And Their Final Meals: Portraits, Interviews, And Recipes

Synopsis

In her first book, *My Last Supper*, Melanie Dunea transformed a pastime that has animated restaurants after hours for decades into a sumptuous photographic journey that provided a glimpse into the rarified world of top chefs. The book garnered national media and critical acclaim for the chic and beautiful package and the totally unique concept. In *My Last Supper: The Next Course*, Dunea expands her circle from the highest echelons of chefs to include the best-loved food personalities such as Emeril Lagasse, Rachael Ray, Joël Robuchon, Tom Colicchio, and Bobby Flay to ask them the question that drove the first volume: "What would you eat for your last meal on earth?" A perfect gift for anyone who loves food, beautifully produced with gorgeous photography, *My Last Supper: The Next Course* is so much more than a coffee table book—it's a fascinating glimpse into the world of people who eat, breathe, and sleep food. As the number of people who consider themselves foodies has exploded, this book is sure to capture the audience who loved the first one and captivate those who are new to the scene.

Customer Reviews

Melanie Dunea photographs the most influential people in the public eye. Her work can be seen on magazine covers, book jackets, movie posters, and album covers. Her last book, *MyCountry*, was published in 2010. She lives in New York City.

Amazing book whether you like food or not! This is about what makes people and in this case 50 of

the world's top chefs tick!! recommend everybody that loves life to read this book. Not sure what inspires you in life? Read this book for some ideas. This book is a journey through top chefs about what's really important in life for all of us.

My Last Supper II is a work of art and contains beautiful photographs. The chefs range from Joel Robuchon to Rachel Ray. Some reviewers may have disagreed with choosing Ray, but, she is stunning in her photo and her last supper choice sounds delicious. This is part of what makes the book so great - you get the inside scoop - the 'naked chef.' Dunea's photos and questions capture the REAL person behind the chef image that we normally see in public. The settings range from a meat locker crammed with sides of beef awaiting preparation (Chef Paul Liebrandt) to a pier on the bayou (Chef John Besh). But wait! There's more! Delicious recipes that we can actually make. :) This coffee table book always generates great mouth watering conversations. Whether you love outstanding photography, great chefs, or scrumptious recipes, this book is for you.

I couldn't be more thrilled that Melanie Dunea has come out with a follow up to "My Last Supper". "The Next Course" is definitely an upgrade - the world's best chefs, delicious recipes, and stunning photographs make for just a fabulous book. My coffee table has never looked better than with both books displayed side by side. Whether you're a food fan, a photography fan, or just a fan of beautifully designed books, this book will not disappoint. Can't wait to give this as my go-to gift for the holidays.

I love portraits and I love food. I also loved the interview questions which revealed what chefs valued in foods and in their lives. The portraits were wonderfully imaginative and well composed. A perfect coffee table book.

This is a second in a series. I think I like the first one a bit better...it's also called My Last Supper. Just a wonderful book in a million ways. I've given many as gifts. Great meditation on food, life, celebration, recipes, death, mortality, etc. Well written, amazing photographs, a few interesting recipes as well.

Bravo. I like "The Next Course" better than the original book. The chefs are more diverse, I think it was clever to include Roy Choi of food truck fame. The photos are really good, I like that one person wrote, photographed and created this whole book, it makes an interesting point of view. I have

started to look at [...]every Tuesday to see the project come to life, it's cool.

This is a large book, worthy of any coffee table! It should be left out as you can pick it up, flip it open anywhere and enjoy the great photos and text. It was quite an education, as these are true "foodies" who live on a different gastronomical planet than myself. Entertaining to say the least and a worthwhile addition to your library.

Good book
