The best routes around the city

Insight Guides wherever possible uses local experts who provide insider know-how and share their love and knowledge of the destination.

The book is one of the better guide books especially if you like to walk. There is well laid out walking routes which is the best part of this book. It takes you through several attractions in specific areas. It also gives the distance of the walk and the estimated time it will take. It doesn't go a lot into depth of each attraction but this is mainly a guide book for self-guiding your own tour around different areas. My only gripe is the online app didn't work well, buggy, and slow.

excellent
