Wong's Nursing Care Of Infants And Children – Text And Virtual Clinical Excursions Online Package, 10e

Synopsis

The leading text in pediatric nursing, Wong's Nursing Care of Infants and Children takes a unique, easy-to-understand developmental approach to describe the care of children at each age and stage of development. Childhood diseases and disorders are organized by age groups and body systems, and described through the nursing process framework.?This edition includes updates on topics such as the new CPR guidelines, immunizations, and pain assessment and management. Written by pediatric experts, Dr. Marilyn Hockenberry and David Wilson, each with nearly 30 years of hands-on experience, this bestseller provides an evidence-based, clinical perspective that shows how the quality of nursing care can impact quality patient outcomes.

Customer Reviews

Well for a text book it was still a dry read yet the illustrations were good and the book is well written. There is a huge amount of knowledge to be absorbed from this book and everything is certainly up to date. It is not a book you can just skim and get the meat of the content.

Very helpful for my course in nursing school so far. I would definitely recommend to any nursing student to help
