TV tie-in paperback

I was very surprised at how thin this book was when it arrived, but anyway. It has info on the stars and is quite good if you've only just started watching the series (or if you're a die hard fan). Most of the info contained in this book is available on the web.

Meet the Stars of Roswell is a great way to learn about the actors who play a character on the WB show, Roswell. It tells you about the lives of all the major actors and their roads to stardom. I definitely recommend this book.

Meet the Stars of Roswell was a wonderful read for me, mainly because I am a huge fan of the television show. It was informative and informed me on many things that I had never known or would have even guessed about the young ensemble that makes up the cast of the hit WB drama, Roswell. It really gave me a new attitude towards the characters and the actual actors who portray them. My favorite section of the book was reading about Majandra, who plays Maria DeLuca. She is

such an interesting person and reading about her just made me like her even more than I already did. The pictures are really wonderful, there are a lot of great candid and wonderful ensemble shots. I would recommend this book to any fan of the show, or anybody who is interested in learning about the fascinating actors who portray Liz, Max, Michael, Isabel, Maria, etc. I did think however, that it could have been a little better. I would have enjoyed more pictures and just more general information, other than that, I really and thoroughly enjoyed this book. It has my seal of approval.

This book was the first book (to my knowledge) to be written about the Roswell cast. It gives great bios of Jason, Shiri, Brendan, Colin, Maj, Kat, and Nick! I was pleasantly surprised (usually unofficial books aren't this good) with the thoroughness of the material. It even includes a section of "what's on the menu at the Crashdown Cafe!" The colored pictures section is awesome as well--it even has pictures of the cast members BEFORE Roswell, like Maj with Tony Danza, and Brendan on Our Guys. There's also a cute picture of Majandra with Miko Hughes (arg, baby Nikolas!!!!!!) when they were in "Zeus and Roxanne." I found out a lot of things I didn't know, including where Brendan started (modeling in Canada). Any Roswell fan will truly enjoy this book!

o my gosh i bought this book and i love it it has so much in it like there is this middle section with all these good pics of the cast and it's got all these pics of the cast members as themselves and on like old shows of theirs it was so good i'm a Roswell fanatic and it had pics even i hadn't seen or knew were out there i worship this book it's too cool but the only bad thing is it was printed b4 Tess came so there's none of her in it but there's all this other good info on the cast like behind the scenes a section on each member and it even tells u everything that's on the actual Roswell menu on the show and it talks to the cast about if they believe in aliens +stuff i

It is totally awesome it has info that I've never heard before like what Jason Behr was like in school and that his favorite band is Dave Matthews. It had some cool (color) before pictures too of Majandra, Shiri, and Katherine. Unfortunately no pics of Nick for all you Kyle lovers out there but it did tell about him, he seems pretty cool and he likes to play the bass guitar. I definitely recommend this book to everyone!

There is some interesting information, yes, but there are also many inaccuracies, and unfortunately, it was more applicable a few years back. I commend it only because it was the first Roswell book out there, but it doesn't include all the stars. If you're interested in details, look at Crash Into Me:

The World of Roswell. Frankly, I found it to be more informative.

this is the book you gotta have! if u whatch or read ROSWELL read this! but clearly this book is 4 fans of JASON, BRENDAN, SHIRI, MAJANDRA, COLIN, KATHLEEN and the other stars. 4 me i LOVE jason bher! and think shiri appleby is cool. so i really enjoyed this book and knew practecly everything about them! so 5 aliens out of 5!
