Mr. Everything: A Billionaire And The Nanny Romance

Synopsis

I'll protect her no matter what! One fake marriage. One hot billionaire. One beautiful nanny. Trying to run a billion-dollar empire while my son chews up nannies for breakfast is tough. Until Sabrina. Blue eyes that could fill the sea and legs for days. I can barely talk to her without stuttering. The gorgeous bomb shell is the only nanny my son has ever loved. She's also the only nanny I've ever loved. But her psycho ex-boyfriend is obsessed with marrying her, and he's willing to do anything to have his way. Only one option. I marry her first. I'll do anything to protect her, but the ex takes it too far. Now I have to rescue her before it's too late! This steamy contemporary romance will keep you company tonight, tomorrow, and the day after. No cheating and a satisfying happily ever after!

Customer Reviews

Sabrina managed to escape an abusive situation and gets a job as a nanny for Randall's son, David, but she has her work cut out for her. Not only is David opposed to having a nanny (and females in general) but her ridiculous attraction to Randall is problematic with the agency's strict no fraternization rule. But when it looks like her captor has found her and is determined to get

her back, Randall's protective instance kicks in. He vows to do anything to keep Sabrina safe. This advance copy I read is my first work by Ms. Bishop and I thoroughly enjoyed it! She managed to include a little of everything in this book. A super hot alpha, an endearing, wounded heroine and a cute, mischievous boy, with an equally mischievous dog. Randall is a terrific hero but will need to figure out that his need to protect is borne out of his love for the people he is compelled to protect. Sabrina has spent so much time running and hiding, giving up on dreams she was once close to realizing. Together, they learn new things about themselves, strengthen each other and become so much more together than they could be alone. This is a fascinating story with strong characters, passion, suspense and danger. Definitely an interesting, entertaining read and worth a one-click.~~~~~So that was my original review, until I read a review with one star. When I voluntarily review a book I feel like I have a responsibility to other readers. If I say a book is good and someone buys it and hates it, I share some responsibility in their bad reading experience. But to leave a one star review after only two chapters is unfair to everyone. The one-star reviewer may never try this author's work again, the author's nascent reputation may be unfairly tarnished by a possibly erroneous conclusion, and other readers may not give this new author a chance based on a one-star review. I've certainly changed my mind about purchasing books in the past after reading an unfavorable review. Let's face it. There are some bad books out there, some really, really bad books out there. But this is not one of them. The plot is well thought out, including a twist or two, and the story moves along at a quick pace. The characters are realistic and multidimensional, and the bad guy is evil enough that it's pretty darn rewarding seeing him brought down. There aren't endless run-on sentences, strange and confusing paragraph breaks, and there're no agonizing maloprops-isms I've had to endure in some books. Is this book the best thing since sliced bread? The Second Coming? The end-all, be-all? No. But it's a pretty darn good debut novel from an author who shows promise and deserves a chance. If you're like me and you enjoy finding new authors and maybe even feeling like you've had a tiny part in their future success, give Ms. Bishop's book a chance. Maybe even leave your own review. ~ ^%~

This is a great debut book for Ms. Bishop. I enjoyed the romance they shared. David was a tough little boy that finally was able to open himself up to someone else. Ms. Bishop's career is off to a great start.

Overall a very enjoyable read. Randall and Sabrina story should that for pain, betrayal, fear, and

obsession one can find peace and strength to trust and love again. Highly recommend this story.

This was a good read. Although it is well written, I personally think that it moved too fast with not enough details.

It was a good story but not very well written especially the sex scenes. And the end was too abrupt.

BAD. Don't waste your time. This was awful. The synopsis sounded so good, but the final product was terrible. So many things wrong with this book. First, the hero and heroine had NO chemistry. Zero. And that's a deal breaker for me. Also, the writing was incredibly juvenile. The dialogue was lame and cheesy. Everything felt forced and nothing flowed. And black contacts? Really? The hero loves her black eyes. That's what the actors wear in demon movies. The whole thing was just one big mess. I'm mad I wasted my time on this.

Sabrina is a young singer who had dreams of becoming a star but found herself locked away as prisoner in what she considered her boyfriends mansion. When she finally manages to escape an old school friend finds her & trains her to become a nanny for the rich & privileged. Sabrina goes to work for widower Randall a wealthy gym & health promoter who has an eight year old son, David. David is a terror always playing pranks on the staff & getting himself into trouble whenever possible. Sabrina accepts the challenge & works to understand & befriend David but he is not trusting of another nanny who only is there because she is probably interested in his dad. Even though Sabrina clearly is attracted to Randall she is there for David & nothing else. But when her friend who owns the nanny agency comes to share that someone has been looking into Sabrina's back ground, Sabrina panics & wants to run. Randall encourages Sabrina to tell him what is wrong & that they will work to solve the problem because he doesn't want her to leave. Randall proposes a business marriage between them so she will be protected by him & she can still be there for David. David doesn't take the idea of the marriage very well & Sabrina is forced to start all over again to gain his trust. Just as things start to fall in place again, her ex shows up & does the unthinkable. As Sabrina & Randall fit to fix the problem they become a strong couple together. This debut novel by Emily Bishop is a pleasant surprise. Like many fake marriage novels the couple over come the awkward situation of being married but not being in-love, but the added dynamic of a young son who wants to feel like he is part of a family adds a great dimension to this story. It is a real solid story that is believable & an easy read. This is meant for mature readers. I voluntarily reviewed an Advanced

Reader's Copy of this book.
