Book by

I got it for my English Comp 2 class for a paper I had to write. It was easier to buy it then to try and find it through the library system. There were many valuable articles in this book to support my claim. I'm not saying that the book is the reason, but I was the only one my professor gave a 100% and it was the first in her entire career. :)

Light weight, super sharp, looks great. i love it so much, perfect. the price is cheap and the quality is high. good.
