O21X - Arban Complete Conservatory Method For Trumpet (New Authentic Edition With Accompaniment And Performance Tracks)

Synopsis

The New Authentic Edition of Arban's Complete Conservatory Method contains the same tried and true comprehensive system of study that Arban developed over a century ago, and this completely re-engraved edition has been painstakingly edited by prominent trumpet performers and teachers. In re-editing the method, the Arban system has been kept intact, while adding some of editors' own insights with respect to how trumpet is taught today. Purists and modernists alike will welcome these new editions. Arban's time-tested pedagogical sequence has also been given a fresh new layout for easier reading. As an added bonus, the included downloadable resources contain spectacular performances of all of the 14 Characteristic Studies as well as piano accompaniments for the Fantasies performed by John Walker. All tracks are in MP3 format and can be downloaded to your desktop or MP3 player/iPod. The download also contains the original text from the first edition of the Arban method in PDF form, including multi-language translations. The Arban Complete Conservatory Method is the definitive must-have for all trumpet players. With this masterful new edition and all of its extra resources, the Arban will remain the driving force in brass education for generations to come.

Great product and service!

This was given as a gift, but I think she was very excited to be getting it. She plays trumpet in

college.

When I moved from Indianapolis to Phoenix 60 years of trumpet music disappeared. So, I am starting all over and the Arban's "Trumpeters Bible" was the 1st purchase.

I used this many years ago as a young trumpet player. Since returning, I have used this in addition to other sources and this is simply the best there ever was. No trumpet player's library should be without this work.

purchased for my son. Take it to Kinkos and get a spiral binding put in the book for \$7 while you wait. It makes it a very usable book on a music stand.

He needed some books for school and I bought it for him as a gift. I'm not a trumpet player but this book seems comparable to the saxophone method by Carl Fischer. It's an ok book, I guess. He needed it though or I would have purchased something else that I think he would have gotten a little more mileage from. I would think this book is the right of passage for trumpet players everywhere.

A MUST HAVE for any trumpet player. The "Trumpet Bible" some call it. If you want to advance your trumpet playing, then I would highly recommend picking this up.

Great reference book to work with. Thank you for the quick shipment of the item.
