Benjamin Newman lives with his wife and two sons in Northern California. He enjoys creating art and stories designed to stimulate imagination.

This book has an underling theme of redemption. Amazed at the artistry and literary genius. I would recommend this for anyone, a great family book.

A great story that shows how creative the author is with recycled materials found from junk yards....The moth is my favorite.

Refreshing to see an author use his gift of creativity to touch the lives of children in this way. A great story with a great message! Look forward to more books from this author.
