Customer Reviews

This is a pretty poor quality book. The cover images are distorted. It looks like someone made it on their home printer rather than professional quality printing. It looks like it should cost less than 5 dollars.

The content of the book is great. Detailed pics of how to draw some of the most popular Pokemon critters! However, I'm not so sure this book is legit based on the cover art.. It looks like someone used MS Paint to copy a bunch of Gifs off the internet and pasted them into a collage for the cover. Several of them are pixelated and stretched into odd shapes etc. Source: I used to make fake ID's with MS Paint as a kid.

Christmas present, so can't say!
