Arrived quickly in good condition. Because I have been having a horrible time with my knees after stepping into a hole, this book mentioned acupuncture and I went to an acupuncturist who gave me a treatment. I was amazed, swelling and heat stopped and I was walking again, but my knee is damaged and so the treatment, although fantastic only lasted until I twisted it again. But, it was very helpful in so much as it told me that I could walk again, it wouldn't work otherwise. I have been in PT, 3 times a week and I am improving in leaps and bounds. So, I learned a great deal from this book, how to eat, exercise and lose weight, very important. Don't fall. I am a 77 year old woman and this is the second time that I have damaged this knee. I have had bronchial asthma and had to take steroids for long periods of time, which caused Osteoporosis, so now I am also working on correcting this. This is a Great Book.

An okay book...didn't learn anything I didn't already know, unfortunately.

Thank heavens!! It's about time to have a fantastic compilation of natural methods like this. Priceless!
