Romania: Complete Tourist's Guide: Part 1

Synopsis

This book (Part 1) addresses tourists and people who want to know more information about Romania. The guide is organized into 23 main chapters, each presenting corresponding county and some "need to know" advice. This book teaches you general knowledge about traveling and will get you familiar with Romanian cuisine. Inside every chapter, you will find the main tourist sights but there are many to be discovered by yourself. You will find basic information about the main tourist attractions, pictures of them, accommodations for each country and useful routes for your journey. I wish you a successful holiday!

Customer Reviews

Terrific guide - I can't say enough good things about it! It provided us with helpful suggestions everywhere we went. We didn't rely on it solely - we also had an excellent large map, suggestions from friends, and local suggestions at each stop. But as a general guide, we greatly appreciated it. Buy the paper version rather than the e-version because you'll consult it all the time, and it's just much easier to use.

What I really like at this book is the quality/price ratio. Compared with other guides for Romania, it provides a solid background for traveling. Its structure is simple: every county is taken and explained to you. The main tourist sights are presented for every county. In this book one can find information about first nineteen counties of Romania (they are sorted alphabetically). The rest of them are presented in Part 2. I bought the Part 2 also because at this low price and very good quality it's really a bargain.

As I heard so much about Romania, I really wasn't sure where to start visiting, so this e-book gave me the sight of that. Pictures are a plus, I really enjoyed it reading it. Very nice views, so much nature in this country, you shouldn't miss visiting Romania. I would totally recommend this book to everyone who wants to go to Romania.

This is an excellent text that gives more than the standard set of instructions and lists. I felt it captured much of the flavor of a solid visit to this fascinating country, so I was well prepared to go. I read the book before the trip and then took it with me to help with some decisions there. It was worth it to buy, use, and carry.

Not well written. Does not provide the expected descriptions of cities and sites that might be of interest.

There are not many Romania travel guides, but this one shows that it's a wide-open market. It is not a guide as such, but rather a catalogue of minimal basic information, devoid of commentary or helpful tips.
