Customer Reviews

Alan Tussy has taught all levels of developmental mathematics at Citrus College in Glendora, CA. He has written nine math books. An extraordinary author dedicated to his students' success, he is relentlessly meticulous and creative--a visionary who maintains a keen focus on the greatest challenges students face in Mathematics. Alan received his Bachelor of Science degree in Mathematics from University of Redlands and his Master of Science degree in Applied Mathematics from California State University, Los Angeles. He has taught across course and curriculum areas from prealgebra to differential equations. He is currently focusing on teaching courses related to Developmental Mathematics. Professor Tussy is a member of the American Mathematical Association of Two-Year Colleges (AMATYC).

R. David Gustafson is Professor Emeritus of Mathematics at Rock Valley College in Illinois and has also taught extensively at Rockford College and Beloit College. He is coauthor of several best-selling mathematics textbooks, including Gustafson/Frisk/Hughes' COLLEGE ALGEBRA, Gustafson/Karr/Massey's BEGINNING ALGEBRA, INTERMEDIATE ALGEBRA, BEGINNING AND INTERMEDIATE ALGEBRA, BEGINNING AND INTERMEDIATE ALGEBRA: A COMBINED APPROACH, and the Tussy/Gustafson and Tussy/Gustafson/Koenig developmental mathematics series. His numerous professional honors include Rock Valley Teacher of the Year and Rockford's Outstanding Educator of the Year. He has been very active in AMATYC as a Midwest Vice-president and has been President of IMACC, AMATYC's Illinois affiliate. He earned a Master of Arts from Rockford College in Illinois, as well as a

Master of Science from Northern Illinois University.

This book arrived in loose pages; unbound and impossible to use in a functional way. Trying to bind the pages proved futile as the paper tears at the site of the holes during handling. Before this horrific experience, I had never encountered someone selling a book in this way. I do not foresee this product as usable for this math class. I am beyond dismayed with this purchase. This is a horrible way to sell a book. I paid one hundred dollars for this and it can not be used

I needed this book for a class I am taking and it is really easy to follow . The only thing I do not like is that the pages are really thin and since this is a loose leaf book, the pages rip easily when in a binder.

Came quick and no problems.

super fast shipping..awesome

The price was half of what the college bookstore was offering. And my son reports it is very easy to follow and comprehend.

Everything shrink wrapped and access code included. Right Edition. Note: for the access code to work your instructor must give you a class key or login information.

It describes what is in the description.

Perfect book just like description
