# Walking In Corsica: Long-distance And Short Walks (Cicerone International Walking)

## Synopsis

A guidebook of long-distance and day walks on the island of Corsica. The three long-distance routes - Mare e Monti, Mare-Mare Nord and Mare-Mare Sud are covered in total over 26 days. A selection of 18 day walks in prime spots, explore the towering forests, gushing cascades, beautiful isolated coves, aromatic maquis and spectacular river gorges that Corsica has to offer. The 124km Mare e Monti is the most wonderful 10 day trek, and provides a roller coaster of treats from breathtaking coastline to some awe-inspiring mountainous landscapes. The Mare-Mare Nord is an 11 day, 140km coast-to-coast route right through the heart of Corsica, while the 5 day, 77km Mare-Mare Sud traverses a great slice of southern Corsica from the Golfe de Porto-Vecchio in the east over to the Golfe de Valinco in the west. Reprinted in 2013 with updates.

## Customer Reviews

I was interested in the shorter day walk part of the book but was disappointed overall. The information is somewhat generic and the number of day walks relatively small. Moreover, most of the day walk are covered in the general Corsica guides such as LP and RG. I would have expected a specialized guide to be able to be more helpful. Overall, I give 3 stars, since I have not looked

much at the long distance section and don't want to be unfair to the whole book, but the short walks section is 2-star by itself.

First time to this wonderful Island and am so excited to return someday in the not too distant future. Wonderful guide book, showing some of the best walks on the island, giving an accurate insight into the typical French way of life. Will definitely use again and also look at other books by the same author.

The book is okay at best. I am not sure what I was expecting but I read a book entitled, "Rose Cafe, Love and War in Corsica" and I seemed to have a better feel for the Island after reading that novel than I did with "Walking In Corsica". Perhaps, I just needed to be entertained a bit more than such a dry munching on bread crusts left in the afternoon sun kind of feeling after reading this book. It does have some good information especially on the hut to hut hikes and stuff you absolutely need to know or your trip could be ruined. However, I still left the book wanting to be encouraged more.
